15 List of Publications of Elias Kiritsis:

My work has more than 13868 citations (compiled from SPIRES and Science Citation Index). It includes 9 papers with more than 250 citations, 34 papers with more than 100 citations and 45 papers with more than 50. The h-index=65. It includes 153 papers published already in peer-reviewed journals, that amounts to an average, 92 citations per published paper.

A detailed list of citations up to 2012 can be downloaded (as a postscript or PDF file) from <http://hep.physics.uoc.gr/~kiritsis/test/index.html>

The (incomplete) Inspire list can be found [here](#).

In Google Scholar (<https://scholar.google.gr/citations?user=BwFbG1kAAAAJ&hl=en>) there are 15703 citations and an h-index de 72. Since 2016 there are 4703 citations and an h-index of 36. The Google Scholar list is missing a highly cited reference, namely reference 82. Almost half of my citations are for works done the last 10 years.

In all my publications the list of authors is **alphabetically ordered** (as is the standard in the field). The only exception is reference 109 below.

- **Papers submitted to refereed journals**
- **Publications in refereed journals**
- **Publications in Conference Proceedings**
