

Prof. Costas Kounnas, DIRECTOR
LPT, Ecole Normale Supérieure
24 Rue Lhomond
Paris 75005
FRANCE

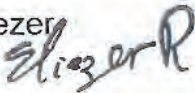

Dear Costas,

My dear friend, when I visited Famagusta I did not know that I would have a personal friend there. It was the first city I visited outside Israel as a teenager and I immediately got to like the friendly people and city. I wish that both of us get to see it revived soon.

Over the years I had the pleasure to learn from you, on the passion to physics and other aspects of life. I have always appreciated your forward looking, your understanding on what is important and what will be important. I have observed in admiration how everything you managed was done effectively and with wisdom. I even enjoyed trading the titles of III referenced papers.

I wish you health!!! Take more care of yourself. I wish you productive and stimulating years in physics and in any road you choose to take.

With my very best wishes, MAZALL Tov till 120.

Eliezer
